335 Cummins Engine

The first 335 was a 743 engine. Not many around any more but it was in the years of the B models. The way to tell is if it has lines on the out side of the head to the injectors like the 220 and 262 then it will be a 5 1/8 bore engine with piston oil coolers. glenn

Cummins QSM11-335 | Construction Diesel Engine | COOPAL

I bought an old Peterbilt [67 281] with a Cummins engine, it was supposed to be a 335 [and could be one] , but I could use some help ID' ing it. There is no tag on the fuel pump and the only numbers I can find on it are stamped on the left front #650617. It has a n old style water pump like a 220 or 262.
