Case controller of the UA 400 Family - The new generation of the E\*LDS System. The UA 400 Family is backward compatible and a much more powerful replacement for the case controllers of the UA 300 Family.For configuration and parameterisation we recommend the PC software LDSWin or the Operator Interface BT 300 Family.The following controllers are available:

### UA 400 Family - EDP - Eckelmann

Case controllers can be easily operated and parameterised with the operator interfaces of the BT 300 range. The operator interface is available in four versions – for installation in the switch cabinet door, for mounting in refrigerated cabinets, as integral part of the case controller and as the BT 300 M mobile service device.
