I have a Panasonic SC-HT650 DVD home theater sound system. The DVD player does not recognize DVD's. It will play audio CD's and CD's with Jpeg photos. I believe the problem started after I played a CD that contained photo's I received from a relative in Germany. I have gone through the setup and do not have any parental lock.

This home theater system includes the world's slimmest 5-Disc DVD changer, as well as a six-speaker system. The SC-HT700 handles the audio end of a home theater, giving you surround sound decoding, amplification, and playback through a specially matched six-speaker system (left, center, right, left and right surround, and low-frequency subwoofer).

Make sure the sound on your TV isn't muted. Push the Mute button on your TV remote. A display on screen should show if the TV is now muted, or not. You want to be sure the TV is not muted. If you are using a separate home theater, surround sound, or sound bar with your television, be sure to check the volume and mute on that device, as well.
