Security Camera Resolution Guide

Analog camera resolution is measured in TV lines (TVL) or can be given in pixels; 720H x 480W, for example. This would be 720 pixels across the screen (horizontal resolution) and 575 pixels up and down (vertical resolution). The higher the number of TVL (or pixels) a security camera is rated, the higher the resolution the camera is capable of capturing (and the more clarity your picture may have).
