The First European Description of Japan, 1585

Europe, second smallest of the world's continents, composed of the westward-projecting peninsulas of Eurasia (the great landmass that it shares with Asia). It occupies nearly one-fifteenth of the world's total land area. The long processes of history marked it off as the home of a distinctive civilization.

Corn was first domesticated by native peoples in Mexico about 10,000 years ago. Native Americans taught European colonists to grow the indigenous grains, and, since its introduction into Europe by Christopher Columbus and other explorers, corn has spread to all areas of the world suitable to its cultivation. It is grown from 58° N latitude in Canada and Russia to 40° S latitude in South ...

The Indo-European migrations were the migrations of Proto-Indo-European language (PIE) speakers, as proposed by contemporary scholarship, and the subsequent migrations of people speaking further developed Indo-European languages, which explains why the Indo-European languages are spoken in a large area from India and Iran to Europe.. While there can be no direct evidence of prehistoric ...

Indo-European migrations - Wikipedia

David Livingstone (1813-73) was a Scottish missionary and medical doctor who explored much of the interior of Africa. In a remarkable journey in 1853-56, he became the first European to cross the African continent. Starting on the Zambezi River, he traveled north and west across Angola to reach the Atlantic at Luanda. On his return journey he followed the Zambezi to its mouth on the Indian ...
